Art Description

A creation of the future, with its ability to properly assess waste and sort it, JUNKI-NATOR has got everything it needs to make it happen.

And with its sidekick JUNKY who sits just next to it, JUNKI-NATOR's hand will take your trash and with its rotating body and scale behind it's back it will measure and sort the trash into its appropriate place for easier disposal. JUNKI-NATOR's glass covered face hopes to see a clean and trash-free world.
